JavaScript, TypeScript, HTML5, CSS3, React, Next.js (App Router), Redux Toolkit, Tailwind CSS, SASS, Styled Components, TanStack Query, SWR, GraphQL (Apollo Client), REST API, WebSocket, Jest, Cypress, ESLint, Webpack, Git, CI/CD, Sentry, Node.js, Express, MongoDB, Docker, PWA, i18n, Agile, Figma Hand-off

WORK EXPERIENCE

Senior Frontend Developer — Bime Bazar

Tehran, Iran | 01/2025 – Present

- Rebuilt the front end of a high-traffic insurance comparison marketplace from scratch in Next.js, replacing the legacy stack with no loss of service.
- Set the architecture, code structure, and performance budget the new codebase is built on.
- Own the public-facing experience end to end, from quote comparison flows through checkout.

Frontend Team Lead — Silver Brain AI AG

Zug, Switzerland | 11/2023 – 08/2024

- Led frontend delivery for Celsius, an LLM production-pipeline management platform, from architecture through launch.
- Conducted code reviews, maintaining high code quality and reducing technical debt.
- Increased application speed by 30% by leveraging advanced caching techniques and best coding practices.
- Mentored a team in Next.js, increasing team productivity by 40%.
- Designed and optimized large-scale web applications, managing a codebase of over 100,000 lines across multiple projects.
- Organized regular training sessions, keeping the team updated on the latest frontend features and best practices.

Frontend Developer — Silver Brain AI AG

Zug, Switzerland | 07/2023 – 11/2023

- Collaborated with design and backend teams, ensuring seamless integration and project success.
- Optimized application performance, decreasing time to interactive by 40% through code splitting and lazy loading.
- Restructured the codebase, enhancing maintainability and scalability, leading to a 50% reduction in code complexity.
- Solved critical performance issues, identifying and fixing memory leaks, resulting in a 45% improvement in application stability.
- Engineered scalable and reusable frontend components, contributing to a 40% reduction in future development time.

- Authored comprehensive documentation for frontend architecture, improving onboarding efficiency and codebase maintenance.

Frontend Engineer — Restarone Solutions Inc.

Toronto, Canada | 09/2022 – 12/2022

- Implemented websites, mobile applications, and landing pages from concept through deployment for more than 10k users.
- Integrated enhancements into web design to improve user stickiness and smooth functionality, and to boost load times; reduced page load time by 70%.
- Translated UX and business requirements into elegant code solutions.
- Tested web-based product functionality and delivered iterations to customers.
- Specialized in user-centric development, ensuring frontend solutions effectively met user and business needs.

Frontend Developer — Oben Origin Co.

Tehran, Iran | 03/2020 – 11/2021

- Standardized all output with a new, responsive, mobile-first approach and strategy, leading to more than 1,000 users and a 25% increase in mobile traffic.
- Assessed UX and UI designs for technical feasibility and identified and resolved 200+ technical issues, resulting in a 15% increase in user engagement.
- Followed SEO best practices, increasing website traffic by 40%, resulting in a 30% increase in organic traffic and a 10% increase in conversion rates.
- Built PWAs for multiple websites, increasing users by 72% and mobile conversions by 50%.
- Fixed 500+ bugs and tested for usability, resulting in a 90% reduction in technical issues and a 20% increase in user satisfaction.

Frontend Developer Intern — Oben Origin Co.

Tehran, Iran | 01/2020 – 03/2020

- Developed and maintained responsive web pages using HTML, CSS, and JavaScript.
- Collaborated with designers and back-end developers to implement user interfaces.
- Tested and debugged code to ensure cross-browser compatibility and optimal performance.

EDUCATION

B.Sc. Computer Engineering — Noshirvani University of Technology, Babol

10/2018 – 02/2023

- Active member of the IEEE community.
- Teaching assistant for Computer Architecture, two semesters.
- Teaching assistant for Programming Language Design, one semester.
